GAME DESCRIPTION

There's trouble in the jungle! Safari Sam, a fearless explorer, seems to have met his match in Bongo, a shrewd ape. Bongo's favorite pastime is trying to bonk Sam with coconuts, and our hero is mad! While Bongo is getting his kicks, Sam tries to get in his licks as he mounts an expedition for revenge!

Sam's first encounter with Bongo is at Waterfall Pass. Here, the coconut-flinger is at the top of a series of dangerous cliffs. Sam's got to climb these cliffs, cross a rickety bridge and jump a treacherous chasm to put a stop to this nonsense! There's plenty of monkeying around as clever chimps try to slow Sam's progress. He's got to jump hard to shake them off! When Sam reaches Bongo, that wily ape takes off for another part of the jungle: Rhino Ridge. At Rhino Ridge, Sam is confronted with ferocious charging rhinos. The only way he can avoid them is by jumping over them or ducking into mole holes. When at last he climbs to Bongo's retreat, Bongo makes tracks for Lazy Lagoon.

Lazy Lagoon is Bongo's last defense. Sam's work is cut out for him; in order to reach Bongo, he's got to cross the Lagoon by any means available. He must hopscotch his way across, jumping to and from lily pads, small islands, diving hippos and biting fish. When he reaches the opposite bank, there are more charging rhinos to be avoided. If Sam can make it to Bongo this time, the playful ape gets his just desserts!

There's danger and adventure aplenty for spunky Sam, and loads of laughs for you as you help him make his way through CONGO BONGO™, the jungle adventure with charm and challenge!

HERE'S HOW TO PLAY

Waterfall Pass

Ouch! Bongo is at the top of the cliffs at Waterfall Pass chucking coconuts at Safari Sam down below. If a coconut hits Sam, it's curtains for certain. He's got to reach Bongo before the Bonus Timer runs out, so start climbing!

Use the Control Stick to move Sam to the cliffs. Move the Control Stick left, right, up or down to make Sam climb up or down and move through the perils of Waterfall Pass. Once he's on the cliffs, he must ascend them to the bridge, but watch out for those coconuts!

Now that Sam's come to that bridge, he has to cross it. Be carefull If he falls in the water, it's all over. At the end of the bridge, Sam takes a slide down a slippery ramp.¹ He's got to take a couple of more steps to knock off a pesky green monkey sitting in front of a hazardous chasm. With Sam facing the opposite side of the chasm, push the Control Stick up and at the same time, press either Side Button on the Controller, to have Sam make a running jump over the cascading water. Close call! As he reaches the other side, a wall of the chasm crumbles behind him. If Sam's jump isn't on target, he'll fall to a watery grave.

As Sam continues his climb to Bongo's hideaway, he's got to get by some scampering monkeys who'll try to jump on his back and slow him down.² Help Sam shake off the monkeys by jumping in place, using either Side Button on the Controller. Sometimes it takes a lot of jumping to get them to loosen their grip!

Now continue to the final cliffs, but watch out for the water. When Sam climbs to the white arrow in front of Bongo, the points remaining in the Bonus Timer are added to your score and the ape beats a hasty retreat to Rhino Ridge.

Rhino Ridge

The hapless hunter is at Rhino Ridge. His nemesis has finally stopped tossing coconuts, but steamed-up Sam still has an account to settle! Bongo is again atop a cliff, taunting Safari Sam to try to reach him. It won't be easy! Sam's got to get by raging rhinos, charging him from all directions. He can evade the rhinos by jumping over them or by ducking into an open mole hole.

Use the Control Stick to move Sam to an open mole hole. Press either Side Button on the Controller and Sam ducks into the mole

¹In Skill Level 4, the ramp is even more slippery. You'll need to coordinate Control Stick movement with jumping, or Sam will slide right off the end of the ramp to his just reward!

²In Skill Levels 2, 3 and 4, if two monkeys are on Sam's back at the same time, those cute little critters will pick up Sam, carry him to the edge of the cliff and throw him into the falls!

hole, concealing himself from the charging creatures. Use caution! If the Side Button is released while Sam is ducking, he pokes his head up out of the mole hole and becomes rhino bait! When the coast is clear, push the Control Stick and Sam climbs out.

Sometimes Sam may duck into an occupied mole hole. When that happens, the irate mole pushes Sam out of the hole, possibly into the path of an oncoming rhino, so stay alert! Be sure to avoid the small water holes and the large pool; if Sam takes a dip it's the end of the trip!

Keep Sam running, jumping and ducking as he makes his way to the cliffs and the white arrow next to Bongo. If he gets there before the Bonus Timer runs out, the points remaining are added to your score. Also, each new mole hole that Sam ducks into gives you 1000 bonus points!

Bongo, however, is not put off that easily! Just as Sam thinks he has him cornered at last, clever Congo Bongo escapes to his final hideout deep in the heart of the jungle—Lazy Lagoon.

Lazy Lagoon

Our hero is now standing on the banks of Lazy Lagoon. There's a lot of water separating Sam from his jeering quarry, Bongo, and crossing the lagoon is a tricky business! Sam has to hopscotch or zigzag his way to the other side by jumping onto and off floating lily pads, slippery hippos, islands mid-lagoon and fish. This won't be easy, but stout-hearted Sam is up to the challenge!

Use the Control Stick to move Sam to the lagoon edge or to a jetty. Wait until a lily pad or hippo floats close by, then push the Control Stick up and simultaneously press either Side Button to make Sam hop aboard. Sam's got to be sure-footed! Those hippos are slippery; he could skid off and sink into the drink! Hippos can also dive and lily pads can shrink. If Safari Sam is on one when this happens, he's a goner! He has to do some nimble jumping to stay afloat.

Onward to the opposite shore and sweet revenge! When jumping onto an island in the lagoon, be careful! Sam must land safely in the **center** of the island. If he lands on the edge, he could lose his footing **and** his life. And there's something fishy about those creatures swimming leisurely back and forth beyond the island—they bite! Safari Sam should take care to stay away from their snapping jaws, when hitching a ride.

On the banks in front of the cliffs, there are more charging rhinos to make things tough for Sam. Once he's safely past the rhinos, he can climb to the white arrow next to Bongo. Then Congo Bongo makes a quick comeback and the hilarious trek through the jungle starts all over again!

SCORING

For each screen completed, the points remaining in the Bonus Timer are added to the player's score.

For jumping the chasm at Waterfall Pass, 500 points are added to the player's score.

For each new mole hole that Sam ducks into, 1000 points are added to the player's score.

For each hippo, lily pad or fish that Sam jumps on, 100 points are added to the player's score.

Points are also accumulated for the distance Sam travels through the jungle.

A bonus Safari Sam is awarded at 30,000, 100,000 and 250,000 points.

Reset

The Reset Button on the console stops the game and returns you to the Title Screen. It can be used to start a new game at any time or in the event of game malfunction.
